

SofTouch™

ECG Electrodes for Sensitive Skin

FEATURES

HYPOALLERGENIC

Hypoallergenic, and not made with natural rubber latex. Breathable tape backing allows you to see under the electrode during use.

WET GEL

Provides instantaneous readings, reducing prep-time

FOR SENSITIVE SKIN

Mild adhesive is gentle on the skin and ideal for when repeat procedures are necessary.

REDUCED ARTIFACTS

Increased surface area coverage ensures proper adhesion, reducing artifact.

Vermed SofTouch™ Electrodes are designed for patients with sensitive skin.

PACKAGING

RESEALABLE BULK POUCH

Ziplock pouch contains 30 or more electrodes

CASE

FDA / GS1 Compliant Labels

HYGIENIC, DISPOSABLE SINGLE-USE PACKS

Reduces risk of cross contamination of unused electrodes

INNER BOX

Single use packs are packaged in inner boxes within the case
