

VERMED

SimplySnap FEATURES

REDUCE ARTIFACTS

Offset connector minimizes artifact from patient & cable movements.

INTUITIVE APPLICATION

Clinicians can attach cables while electrodes are on patient without compromising gel well..

WET GEL

Wet gel provides quick reading & stabilization.

ATTACHMENT FLEXIBILITY

Electrode can be used with either a snap or an alligator clip.

VERSATILE AND DURABLE

Suitable for all diagnostic procedures and stays on patient through multiple departments.

Compares to both the BlueSensor® and Skintact® Tab 'n' Snap.

PACKAGING

RESEALABLE BULK POUCH

Ziplock pouch keeps electrodes fresh after opening.
